Dear Frank P. Long Families,

As part of our school district's health education program, 4th & 5th grade students at Frank P. Long Intermediate School will be provided one lesson introducing pre-adolescence and the onset of puberty. This lesson, accompanied by a video presentation will be conducted by our physical education department during P.E. classes on Thursday May 8th and Friday May 9th. Separate sessions are held for boys and girls in order to allow for the most comfortable learning environment and to encourage participation by the students in the class.

If you would like to review the video prior to your child, please scan the appropriate QR code to access the video link.

Boys' Only

Girls' Only

If you do not want your child participating in this lesson, please forward a letter to your child's teacher requesting that he/she be excluded. Otherwise, we will proceed with the schedule and anticipate that your child will participate. This is an informative topic and one which serves as an introduction for further health education lessons in the future.

If you have any questions, please do not hesitate to contact your child's Physical Education Teacher (631) 730-1737.

Sincerely,

Mr. Cuffie
Mrs. Leonard
Ms. Hruby
Physical Education Department
